WWW.DGVALVESYSTEMS.COM

DG VALVE SYSTEMS...

- Canadian owned & operated since 1995
- has provided quality valve automation and manual valve products to a wide range of end users and fabricators.
- stocks many major brands of valve actuators and valves with the ability to virtually match any actuator to any valve.
- operates a fully staffed machine shop which allows quick turnarounds of automated valve products.
- provides extensive inventory and "off the shelf" sales of all common actuator types and sizes.
